DETAILED ACTION

This action is responsive to the amendment filed 04-02-2007, which as been entered.

Claims 1-10 are allowed.

Terminal Disclaimer

1. The terminal disclaimer filed on 04-02-2007 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of patent no. 7,094,168 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of an auto tensioner as set forth in claim 1, and most significantly requires an oil reservoir chamber forming a gas chamber in an upper portion sectioned in a sealed manner in an outer periphery of the cylinder and the plunger and the first oil passage is provided with a locking means operating in response to an external input signal and acting to close the first check valve. None of the prior art allows for a locking means that operates with response to a signal.

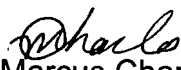

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. DE (4039816) and EP (1022487) disclose a tensioner having first and second check valves but do not disclosed a locking means as claimed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (571) 272-7101. The examiner can normally be reached on Monday-Thursday 7:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ridley Richard can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
